WHAT WE DO

West Coast Elevators are the exclusive Australian distributors of the Italian designed and made 'Suite Lift' range of products, which are compliant to the Australian Lift Code AS1735.

We specialise in the Supply, Installation and Maintenance of high quality Italian Residential Lifts, Low Rise Commercial Lifts and Disability Access Lifts.

West Coast will not be beaten for Quality, Flexibility, Value and Customer Service.

Our team of skilled staff have many years of experience and knowledge within the industry and are committed to assisting all of our clients with design, Installation, Service and 24hr Support.

QUALITY & LUXURY

Manufacturing your Suite Lift

The Suite Lift range of products have over 25 years of design and manufacturing experience built into them. Each lift package comprises of the latest technology resulting in the highest quality, stylish and efficient lift systems. Our supplier is committed to continuous improvement and design innovation.

The Suite Lifts are manufactured using innovative, energy efficient machinery such as the Fiber Optic Laser Cutting machine. The entire production process relies on the energy produced by a 100kw solar powered system installed at the production plant. Thanks to this, the factory is energy self sufficient, confirming our suppliers commitment to a greener future.

ECONOMIC

All Suite Lift packages come with the latest energy saving features and are qualified Class A according to the German norm VDI4707.

GLAZED METAL STRUCTURES

Suitable for indoor and outdoor applications

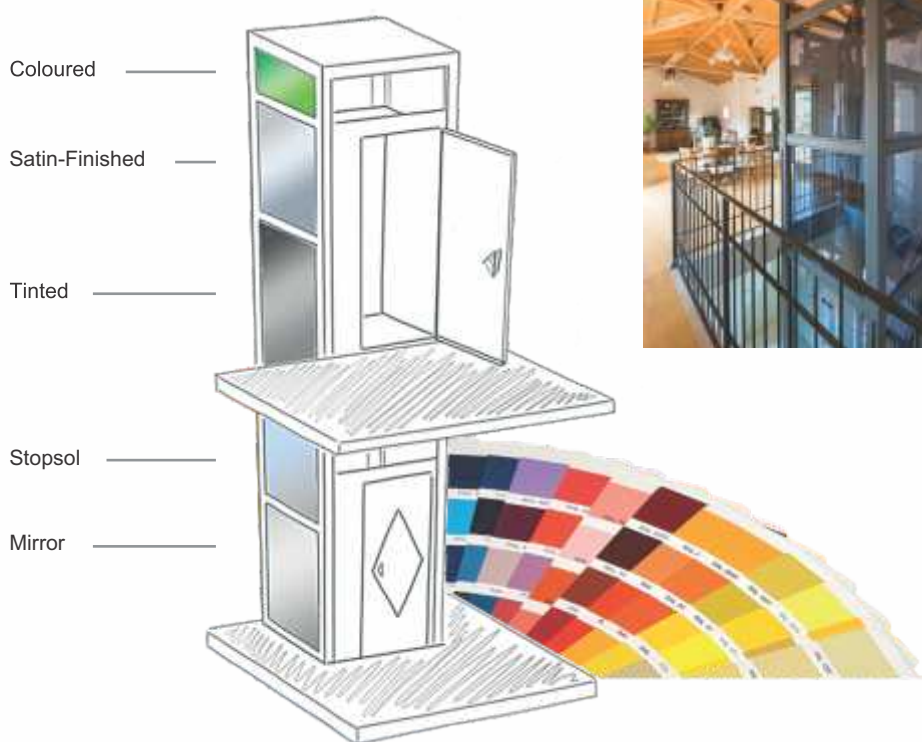

LUXURY DESIGN **METAL STRUCTURES**

Suitable for indoor and outdoor applications

West Coast Elevators offers a huge range of Metal Structures which are suitable for indoor and outdoor applications. The entire Suite Lift Product Range can be incorporated into a luxury Metal Structure. West Coast Elevators can even custom design a Metal Structure for you, so we guarantee the best fit design for your project.

CRYSTAL MINI SUITE LIFT

Disability Access Solution

DISABILITY ACCESS CRYSTAL MINI SUITE LIFT

Complying to AS1735.14 & AS1735.15 - Low rise platforms for passengers

The sleek and efficient Crystal Mini Suite Lift is the perfect solution for Disability Access. West Coast Elevators has built this package specifically for Australia. The Crystal Mini Suite Lift platform is perfect for any environment thanks to its sleek and carefully designed configuration, which includes stainless steel frame, toughened safety glass paneling, mechanical guard system, aluminium anti slip treadplate floor, glass doors with semi automatic closing and electric lock.

Building large ramps for limited mobility access to buildings can be costly with the current gradient required for ramps, the space required can be substantive and not always achievable. The Crystal Mini Suite Lift is the perfect solution for saving space and offers immediate access to any building entrance.

Getting your certificate of occupancy is easy when you have a compliant Crystal Mini Suite Lift installed.
